

RoHS & REACH Certificate of Compliance

Minnesota Electric Technology state that we only use qualified component manufacturers in our products, whose specifications meet or exceed the requirements of the European Directive for the Restriction of use of certain Hazardous Substances (RoHS) that were introduced in July 2006, and also include the recast requirements laid down in Directive 2011/65/EC (the EU RoHS 2 directive). We hereby certify that our products do not contain banned substances, in quantities which would exceed those specified limits.

It is the intention of Minnesota Electric Technology to deal only with suppliers that can demonstrate that they can manufacture our products, components or materials in an environmentally responsible manner, that meet the requirements of the RoHS Directive 2011/65/EC.

REACH

Minnesota Electric Technology fully supports the aim of Reach in improving the protection of human health and the environment through the better and earlier identification of the intrinsic properties of chemical substances. As a downstream user, the products of Minnesota Electric Technology are non-chemical products that are not designed to release any substance under normal and reasonably predictable application scenarios during their lifespan. Therefore, as per REACH requirements, Minnesota Electric Technology products do not need to be registered.

Based on information obtained from our suppliers, this document certifies that NO Minnesota Electric Technology products contain > 0.1% by weight of the Substances of the Very High Concern (SVHC) as listed by the European Chemical Agency (ECHA) under the provisions of Regulation No. 1907/2006 including the new candidate list that was released on 7th July 2017 (174 substances).

All new designs and solutions provided by Minnesota Electric Technology will give due consideration of the need to reduce hazardous substances.
